

Adhere layers to create dimensional styling.

Stipple Surface Texture

Matte, Stipple or slate.

Five Standard Profiles

Tombstone profile shown.

Raised Text and Character Coloring

Best offers 73 standard colors.

14 Standard Integral Colors

Canyon and gray colors featured. UV coating option available for exterior usage.

Paper Insert Options

Add an updatable paper insert window holder to any multi-use room sign to expand the sign's messaging capabilities.

ImPressions, Perfect for High-Traffic Environments

ImPressions uniquely combines durable performance and design flexibility in a single-piece ADA sign. That means no attached letters or raised characters to pull or pick at by curious passersby. ImPressions is perfect for high-traffic environments such as schools, hospitals and hotels – withstanding damage from cleaning and excessive handling without compromising fine graphic detail.

ImPressions is manufactured through a process of thermoforming which provides for crisp, clean edges, detailed text, logos and graphics. Combined with integral color and fingerprint-resistant surface texturing, this sturdy technology provides a wide range of design flexibility.

The product's performance lies in its composition — made from an impact and flame-resistant, thermoplastic alloy used in a wide range of industrial and commercial applications including aircraft and medical equipment enclosures.

Five Standard Profiles

Ellipse/Round profile shown.

Bevels and Edge Detailing

14 Standard Integral Colors

14 standard integral colors available to complement most contemporary environments. UV coating option available for exterior usage.

Optional Decorative Accents

Enhance the design of any sign with decorative accents.

Surface Textures

Stipple and slate surface textures provide additional flexibility to the design and help hide fingerprints and minor marring from excessive handling.

Raised Text and Braille

Integral tactile lettering and preferred dome-style Braille.

Raised Text and Character Coloring

Best offers 73 standard colors. Custom colors available.

Paper Insert Options

Add an updatable paper insert window holder to any multi-use room sign to expand the sign's messaging capabilities.
